

Dear friends, wishing you all a blessed day in our Lord.

We begin services at St Michael's on Sunday 20th - one service at 09h00. We are most grateful to the folk who have made themselves available to be trained as our support team to fulfill the COVID19 protocols for the holding of religious gatherings. Thanks you to Tayna for setting up the approach to the church off Letchworth drive (we will only use this entrance for the time being). I am attaching some pics to show these preparations. The church has been defogged.

While we certainly understand that some will be cautious about returning to share in worship at our church, we do encourage you to come and be with us. The required protocols will be strictly adhered to. I am looking very much forward to seeing those who will join us on Sunday,

God bless

Fr. David
